(Unaudited - Expressed in Canadian Dollars)

1. Nature of Operations and Going Concern

Silverton Metals Corp., formerly Plymouth Realty Capital Corp., (“Silverton” or the “Company”) was incorporated under the Business Corporation Act (Ontario) on July 15, 2013. On March 21, 2019, the Company was continued under the British Columbia Business Corporations Act, and on March 2, 2021, in conjunction with the closing of its qualifying transaction (“Qualifying Transaction”), the Company changed its name to Silverton Metals Corp. From incorporation to the date of these consolidated financial statements, there have been no significant operations. On July 14, 2020, the Company consolidated its issued and outstanding common shares on the basis of 10 pre-consolidation shares for one post-consolidation share (the “Consolidation”). All references to share and per share amounts in these consolidated financial statements have been retroactively restated to reflect the Consolidation. Upon closing of its Qualifying Transaction on March 2, 2021, the Company ceased to be a Capital Pool Company, as defined in Policy 2.4 of the TSX Venture Exchange (“TSX-V”), and became a Tier 2 Mining issuer on the TSXV under the symbol “SVTN”. On May 5, 2021, the Company’s shares commenced trading on the OTC Markets system, through the SEC-registered Alternative Trading System quotation facilities (known as OTC Link® ATS), under the symbol “SVTNF”. The head office of the Company is located at 704-595 Howe Street, Vancouver, British Columbia, V6C 2T5.

On March 2, 2021, the Company completed its Qualifying Transaction with the acquisition of three silver-focused Mexican mineral properties, being Peñasco Quemado, Sonora; La Frazada, Nayarit; and Pluton, Durango (the “Silver Properties”), from Silver One Resources Inc. (“Silver One”), a TSX-V listed company, by acquiring from Silver One all of the issued and outstanding shares of KCP Minerals Inc. (“KCP”), which holds, through its wholly owned Mexican subsidiary, Minera Terra Plata S.A. de C.V. (“Minera Terra”), a 100% interest in the Silver Properties (see Note 4).

Going Concern

These condensed interim consolidated financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. The Company’s ability to meet its obligations and maintain its current operations is contingent upon successful completion of additional financing arrangements. The Company expects to incur further losses in the development of its business. At March 31, 2022, the Company had a working capital of \$2,109,651 (2021 – working capital of \$2,881,501), which the Company believes is sufficient to meet its obligations and continue its operations for at least the next twelve months.

Beyond the next 12 months, the Company’s ability to continue as a going concern will be dependent upon its ability to obtain the necessary financing to meet its general operating expenses and to continue to explore its mineral properties. Although the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms acceptable to the Company. These condensed interim consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

(Unaudited - Expressed in Canadian Dollars)

COVID-19 and Russian-Ukraine Conflict

Since the onset of COVID-19 in 2020, and continuing into 2022, significant changes in the stock market have occurred for various reasons linked to the COVID-19 global pandemic. The impacts to the Company of further market changes, arising from COVID-19 are not determinable at this date, however these could be significant to the Company's ability to raise new capital and thus the Company's financial position, results of operations and cash flows. The Company's liquidity and ability to continue as a going concern may also be impacted. As at March 31, 2022, COVID-19 has not had a significant negative impact on the Company's operations or ability to raise capital.

During February 2022, Russia launched a large military invasion of Ukraine leading to a disruption in the supply of energy resources, the imposition of sanctions on Russia, increased tension between the West and Russia and financial market uncertainty. These situations had an impact on many entities and the markets for the securities that they issue and the impacts may continue.

2. Basis of presentation

Statement of Compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34 - Interim Financial Reporting. These condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2021 which have been prepared in accordance with IFRS as issued by the IASB.

These condensed interim consolidated financial statements were approved by the board of directors for use on May 27, 2022.

In the preparation of these condensed interim consolidated financial statements, the Company has used the same accounting policies and methods of computation as in the annual financial statements for the year ended December 31, 2021.

3. Critical accounting estimates and judgement

The preparation of these condensed interim consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities and contingent liabilities at the date of the condensed interim financial statements and the reported amount of expenses during each year. Actual results may differ from these estimates. The significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those applied to the financial statements for the year ended December 31, 2021.

4. Acquisition of subsidiaries and exploration and evaluation assets

Under the terms of a share purchase agreement dated November 16, 2020, as amended January 4, 2021 and February 1, 2021, Silverton acquired from Silver One all of the issued and outstanding shares of KCP, which holds a 100% interest in Minera Terra and, thereby indirectly, the Silver Properties, and, in consideration of which, Silverton agreed to pay Silver One \$6,000,000 in cash and shares as follows: (a) pay \$1,250,000 in cash on closing (paid March 3, 2021), (b) issue 4,375,000 common shares of Silverton (the "Consideration Shares", issued March 3, 2021), (c) pay \$750,000 in cash eighteen months after closing, and (d) pay \$500,000 in cash twenty four months after closing. The deferred cash consideration payments are in the form of non-interest promissory notes. The acquisition of the shares of KCP was the Company's

Qualifying Transaction under the rules of the TSX-V and closed on March 2, 2021. The acquisition of KCP and Minera Terra did not qualify as a business combination and is accounted for as an asset acquisition.

On acquisition of KCP on March 2, 2021, the Company recorded an adjustment to mineral properties of \$264,122 of fair value discount applied to the deferred cash consideration, which was estimated using a discount rate of 15%. This discount is being unwound over the period from acquisition of KCP to the date of payment of the deferred cash consideration. During the three months ended March 31, 2022 the Company recognized an unwind of discounting on deferred cash consideration of \$38,839 (2021 - \$Nil) (Note 6).

Silverton also granted a 1.5% net smelter return royalty (the "Royalty") on each of the Silver Properties to Silver One. At the option of Silverton, Silverton may repurchase, two-thirds (2/3) of the Royalty (being a 1% net smelter return royalty) with a payment equal to US \$500,000 for each of the Silver Properties.

During the year ended December 31, 2021 the Company incurred \$114,669 of acquisition costs, related to the Qualifying Transaction, which were recorded as long-term deferred acquisition costs at December 31, 2020. These costs were transferred to exploration and evaluation assets upon closing of the Qualifying Transaction (Note 6).

At March 31, 2022 the deferred cash consideration payable is represented as follows:

7. Share Capital

a) Authorized and issued

Unlimited common shares, without par value

b) Consolidation

On July 14, 2020, the Company consolidated its issued and outstanding common shares on the basis of 10 pre-consolidation shares for one post-consolidation share (the "Consolidation"). All references to share and per share amounts in these consolidated financial statements have been retroactively restated to reflect the Consolidation.

c) Financings:

During the three months ended March 31, 2022, there were no shares issued.

During the three months ended March 31, 2021, the following shares were issued:

Brokered and Non-Brokered Private Placement

On January 8, 2021, Silverton, completed its private placement offering through the issuance of 9,250,000 subscription receipts (each, a "Subscription Receipt") at a price of \$0.80 per Subscription Receipt for aggregate gross proceeds of \$7,400,000 (the "Brokered Private Placement"). The Brokered Private Placement was completed by a syndicate of underwriters (the "Agents"). As a result of closing of the Qualifying Transaction, each Subscription Receipt automatically converted, on March 2, 2021, into one common share of Silverton (each a "Silverton Share") and one Silverton common share purchase warrant (each a "Silverton Warrant"). non-transferable common share purchase warrants equal to 6% of the number of Subscription Receipts issued under the Brokered Private Placement (each a “Broker Warrant”). Upon completion of the Qualifying Transaction, each Broker Warrant is exercisable into one Silverton Share at an exercise price of \$0.80 for a period of 24 months from the escrow release date. In addition, the Company incurred cash finders’ fees of \$647,213, other cash issuance costs of \$85,271 and issued 555,000 finders’ warrants with a fair value of \$288,696. The fair value of the finders’ warrants was estimated using the Black-Scholes option-pricing model. Weighted average assumptions used in the pricing model were as follows: share price - \$0.80; exercise price \$0.80; expected life – 2 years; risk-free rate – 0.24%; expected volatility - 132%; expected forfeitures – nil; and expected dividends – nil. The significant estimated assumptions are the expected life which is based on the contractual maturity of the warrants and the expected volatility which is based on a comparable public company’s historical volatility. Share price is the share price on date of issuance.

On March 2, 2021, Silverton, through Finco, completed a non-brokered private placement for 2,324,000 units (each a “Unit”) at a price of \$0.80 per Unit for total proceeds of \$1,859,200 (the “Non-Brokered Private Placement”). As a result of closing of the Qualifying Transaction, each holder of the Units received one Silverton Share and one Silverton Warrant. Each Silverton Warrant is exercisable for one Silverton Share at an exercise price of \$1.15 until March 2, 2024.

d) Stock options

The Company adopted a share option plan (the “Plan”) on August 6, 2013 for certain employees and non-employees. The Plan provides for a floating maximum limit of 10% of the outstanding common shares, as permitted by the policies of the TSX-V. The exercise price of option grants will be determined by the Board of Directors, but cannot be lower than the price permitted by the TSX-V. The Plan provides that the number of common shares that may be reserved for issuance to any one individual upon exercise of all share options held by such individual may not exceed 5% of the issued common shares, if the individual is a director or officer, or 2% of the issued common shares, if the individual is a consultant or engaged in providing investor relations services, on a yearly basis. Subject to earlier termination, all share options granted under the Plan will expire not later than the date that is five years from the date that such share options are granted.

In the event that an optionee ceases to be a director, officer, employee or consultant, the option will terminate within ninety days. In the event of the death of an optionee, the options will only be exercisable within 12 months of such death. Options granted under the Plan are not transferable or assignable other than by will or other testamentary instrument or pursuant to the laws of succession.

The balance of options outstanding and related information for the three months ended March 31, 2022 and 2021 are as follows:
